

**You are**

Text und Musik: Friederike Dinse

**F**                    **G**                    **am**  
What would my life be without you?

**F**                    **G**                    **am**  
What would be my goal, where would I go if I didn't know you're real?

**F**                    **G**                    **am**  
Where would I stand if you hadn't given me your precious blood?

**F**                    **G**                    **am**  
Lord, your great love saved me.

**F**                    **G**                    **am**  
You have been with me, even when I didn't trust in you.

**F**                    **G**                    **am**  
I didn't believe in you, but you hold me close.

**F**    **G**    **am**                    **F**                    **G**    **am**  
And now I stand before you and I praise your holy name.

**F**                    **G**                    **am**  
You are my saviour and my only one.

**F**                    **G**                    **am**  
You are my past and my future.

**F**                    **G**                    **am**  
Each day again I lay my life before you

**F**                    **G**                    **am**                    **F G am**  
And all my life I wanna sing about your glory and grace.
